Arlies

Arlies features a sleek square-edge design with concealed reveals, making it an ideal solution for subtly hiding elements above the ceiling, such as decking, plumbing, air ducts, lighting, and cables. Constructed from galvanized steel or aluminum, it offers a cost-effective, durable option suitable for both interior and exterior installations.

The product supports versatile installation configurations, including flat horizontal, vertical, and sloped ceilings, ensuring adaptability for diverse architectural needs. For non-continuous ceiling installations, Arlies can be finished with cloud trim for a clean and professional appearance. Available in powder-coated finishes, Arlies offers a choice of solid RAL colors or wood veneer prints, delivering the aesthetic appeal of natural wood without the maintenance challenges. Unlike traditional wood, the wood-look finish resists warping, cracking, and rot, even in high-moisture environments.

For applications requiring low-height ceilings, Arlies planks can be finished on both sides, ensuring a polished appearance from every angle. Whether for a clean, minimalist interior or a functional exterior, Arlies provides a durable, visually appealing ceiling solution tailored to your design needs.

CELESTIA ALUMINIUM BATTEN CEILING

Where innovation meets tradition!
 Experience high-quality, versatile,
 India-made linear ceilings designed
 to elevate your space.

KEY SELECTION ATTRIBUTES

- Panels are available in widths of 3", 4", 6", and 8", including reveal, with a 5/8" thickness, ensuring dimensional consistency and robust performance.
- Designed with a 5/8" square edge and a closed reveal, delivering a sleek and seamless architectural appearance.
- Features an engineered carrier system for precise, push-click installation, streamlining the installation process.
- Supports both continuous wall-to-wall and discontinuous cloud setups, with optional trim for clean edges.
- Suitable for walls, sloped surfaces, and ceilings, meeting diverse design and functional needs.
- Fabricated from lightweight and durable 0.5-mm aluminum or 0.45-mm galvanized steel.
- Finished with a 55-micron powder coating for durability and a 10-year warranty on RAL colors and wood finishes.
- Offers custom color and veneer matching for personalized design solutions.
- Enhanced Double-Sided Aesthetics and Double-sided finishing is available for exposed planks, adding weather resistance and aesthetic appeal.
- Easy Maintenance Accessibility: Panels can be easily removed for direct access to the plenum, simplifying maintenance and adjustments.

ARLIES - DATA SHEET

Item No.	Description	Dimension Nominal W x L x H (Custom Size)
AS-3LP	3" Linear Plank	8 X 10 X 12"
AS-4LP	4" Linear Plank	8 X 10 X 12"
AS-6LP	6" Linear Plank	8 X 10 X 12"
AS-8LP	8" Linear Plank	8 X 10 X 12"
CM-BS-4-120	Carrier Molding	1-1/2" x 1/8" x 120"
CM-BS-3-120	Carrier Molding	1-1/2" x 1/8" x 120"
BS-4SP	4" Splice	10pc/Ctn
BS-3SP	3" Splice	10pc/Ctn
BS-6SP	6" Splice	10pc/Ctn
BS-8SP	8" Splice	10pc/Ctn
AM-ST-120	Angle Molding	3/4" x 120" x 1"
TR-BS	Threaded Rod	1/8" x 120"
RCC-4BS	4" Rod Connector clip	10Pc/Ctn
CTM-4-XXX	L-Cloud Trim, STD Color	120" x 4"
CTM-6-XXX	L-Cloud Trim, STD Color	120" x 6"
CC	Cloud Trim Connector Clip	10 Pc/Ctn

SURFACE FINISHES

We offer a range of Wooden and Metal finishes, including White, Silver Grey, Gun Metal Grey, and our signature Wood-Look powder-coated finishes. Panels can be customized to be finished on both sides, depending on your project requirements, making them suitable for exterior applications. Additionally, we provide custom color options to meet specific design needs. For personalized color matching or inquiries, feel free to reach out to us at quotation@celestiadesign.com.

Celestia battens are available in all Dulux powder coat colours.
