Lynx

Lynx product gives look of smooth rounded plank with open to plenum look or reveal can be concealed with filler strip. This feature of open plenum can be implemented to increase acoustical function, also to increase airflow and ventilation above the ceiling. The product is available in galvanized steel or aluminum and is suitable for exterior and interior as well as exterior installation. The product can be installed in flat horizontal or vertical and sloped ceilings. Product is offered in powder coated finish in solid RAL colors or wood veneer print. Wood print option gives look and feel of a true wood without maintenance and downsides like warping, crating or rot if exposed to moisture. Additionally Lynx planks can be finished on both sides for a low light ceiling use.

CELESTIA ALUMINIUM BATTEN CEILING

Where innovation meets tradition!
 Experience high-quality, versatile,
 India-made linear ceilings designed
 to elevate your space.

KEY SELECTION ATTRIBUTES

- Available in widths of 3", 4", 6", and 8", including reveal, with a 5/8" thick panel.
- Features a 5/8" rounded edge with an open reveal for plenum visibility.
- Utilizes a specially designed carrier system for easy push-click installation.
- Supports both continuous wall-to-wall installations and discontinuous cloud installations using cloud trims.
- Linear planks available in standard wood finishes and metallic colors, with custom color matching available
- Suitable for installation on walls, sloped surfaces, and ceilings.
- Planks are made from 0.5 Aluminum or 0.45 galvanized steel for cost effective option.
- 55 microns thick powder coating with 10 yr warranty on all RAL color and wood finish. Custom color and veneer finish matching are offered to meet exact project design inspiration.
- Individual planks can be removed with ease, providing direct access to the plenum for maintenance without having to remove whole ceiling.
